EDGE 210MX 2 x 10" Stage Monitor (Preliminary information)

EDGE 210Mx is a compact, high performance stage monitor loudspeaker.

Twin 10" LF transducers with Tetracoil double voice coils confer exceptional power, precise control, improved impulse response and handling of transients. The cabinet's bass reflex design incorporates a pair of tuned vents for enhanced LF performance and ultralow distortion. A high specification 2.4" neodymium HF transducer is loaded by a custom ABS 70°x 50° waveguide, delivering excellent feedback resistance and exceptionally even coverage across the listening plane.

Weighting in at just 16.5kg and with a discreet 335mm profile, EDGE 210Mx is highly portable and preserves sightlines between performers and audience. Sidemounted speakON input / link connectors simplify onstage cabling.

An Internal filter matches the phase and frequency response of the bi-amp version (EDGE 210M) when used with the dedicated SCiO or Armonia preset.

EDGE 210Mx is proudly made in Belgium and protected by a tour-proven, weather-resistant coating.

50Hz - 18kH

Technical specifications

Description	Stage monitor loudspeaker
Transducers	LF: 2×10" Tetracoil • HF: 1×2.4"
Frequency range (-6dB)	50Hz - 18kHz
Nominal directivity (-6dB)	70°x 50°
Peak SPL (1)	135 dB
Processing	Dedicated AUDIOFOCUS A series SCiO and Powersoft Armonia presets
Connectors	2 × 4-point speakON ln / Link (on side panel)
Nominal Impedance	LF 8 ohm - HF 8 ohm
Watt AES/peak	700 / 3120W
Dimensions (H x W x D)	335 x 540 x 475mm • 13.2 x 21.3 x 18.7 inches
Weight	16.5kg / 36.4lbs
Finish	Highly resistant polyurea coating
Cabinet	High grade birch plywood
