

# S 15 More bass. Less space.

Up to 5.000

Complete solution

Omni and Cardioid

40Hz to 100Hz

S 15 is a compact, high-performance passive touring subwoofer, designed to accompany our VENU series in a wide range of sound reinforcement applications requiring high SPL in a discreet, compact package.

S 15 houses a long excursion 15" neodymium driver in a bass-reflex and T-lined design, and has the versatility to be deployed stand-alone, stacked or pole-mounted.

S 15 can be quickly deployed in any configuration, including cardioid and end-fire, when used with AUDIOFOCUS A Series amplifiers. Armonia presets are also available for Powersoft amplifiers.

S 15 is built with pride in Belgium and coated in tough, weather-resistant polyurea to safeguard your investment. The cabinet front is protected by a rigid metal grill, backed by acoustically transparent foam.
