

# S 18i More bass. Less space.

S 18i is a compact, high-performance installation subwoofer, providing the perfect companion to the AUDIOFOCUS VENU, FR-X, or ARES 8 series in standalone, stacked, or flown configurations. Cardio and end fire on every version.

The subwoofer houses a long excursion 18" neodymium driver and combines front diffusion, bass reflex, and transmission line design for ultimate efficiency and performance.

S 18i is built with pride in Belgium and coated in tough, weather-resistant polyurea to safeguard your investment. The cabinet front is protected by a rigid metal grill, backed by acoustically transparent foam. Its compact design makes S 18i easy to transport and install.

We recommend AUDIOFOCUS or Powersoft amplifiers for use with S 18i.

Up to 7.000

Complete solution

Omni and Cardioid

38Hz-110Hz
