

115SGa^{DUO} Ground stack 15" self-powered subwoofer

Complete solution

Omni and
Cardioid

35Hz to 100Hz

115SGa^{DUO} is a compact, powerful active touring subwoofer, created to complement multiple short-medium throw AUDIOFOCUS ranges, including the Cyrus CX8 and Isolde AP108 point source loudspeakers.

115SGa^{DUO} is designed for standalone and ground-stacked deployment, with a pole-mount socket allowing easy mounting of top cabinets. An onboard Class D amplifier module with full DSP and 2 x speakON connectors enable 115SGa^{DUO} to directly power external top speakers, offering a streamlined, plug 'n play PA solution. The integral amplifier can be remotely monitored and controlled via a browser-based WebUI.

The subwoofer houses a next-generation 15" neodymium LF transducer. Tetracoil Double Voice Coil technology ensures 115SGa^{DUO} achieves best-in-class SPL for its size while delivering outstanding efficiency and clarity.

All AUDIOFOCUS loudspeakers are built in Belgium by skilled craftspeople and state-of-the-art machinery before being coated in tough, weather-resistant polyurea to safeguard your investment.

Technical specifications

Description	High-power active ground stack 15" subwoofer
Transducers	LF: 1 x 15" with Tetracoil Double Voice Coils
Frequency range (-6dB)	35Hz-100Hz
